DETAILED ACTION

This Office action is in response to applicant's response received on 09 March 2006.

Terminal Disclaimer

1. The terminal disclaimer received on 09 March 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,689,651 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

2. Claims 1-24 are allowed.
3. The following is an examiner's statement of reasons for allowance:
 - Claims 1-8, 13-16 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for

manufacturing a semiconductor device that includes the step of crystallizing a semiconductor film by irradiating with a laser beam, wherein a light attenuating means is inserted between an oscillator and a homogenizer when an energy of the laser beam is lower than an output energy range that allows the oscillator to operate most stably;

- Claims 9-12, 17-24 are allowed because the prior art of record does not teach or suggest, in combination with the other claim limitations, a method for manufacturing a semiconductor device that includes the step of crystallizing a semiconductor film by irradiating with a laser beam through light attenuating means that is inserted between an oscillator and a homogenizer, wherein an energy of the laser beam is lower than an output energy range that allows the oscillator to operate most stably.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
